

**Products Name: 10.1" 1080P Quad Wireless Camera System**

**Model number: ST-101WCS**

**Product photo**

**2D drawing**

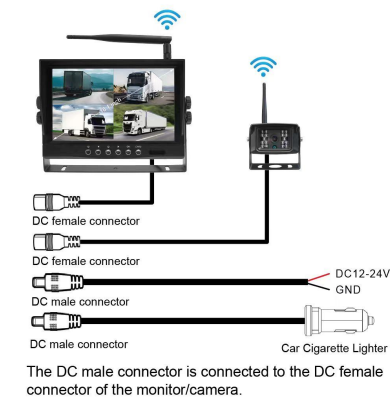

**Wireless Monitor Specification**

|                   |                                                          |
|-------------------|----------------------------------------------------------|
| Screen Size       | 10.1" IPS                                                |
| Resolution        | 1024*600*RGB                                             |
| Resolution        | AHD 1080P, 2MP pixels                                    |
| Video Input       | 4 ways Channel Video                                     |
| Effective Pixels  | 1920(H) x 1080(V)                                        |
| Display Modes     | Single, dual, triple, quad split                         |
| Smart Function    | AI BSD (Blind Spot Detection) — Menu Selectable (On/Off) |
| TV System         | PAL/NTSC                                                 |
| Power supply      | DC 12-36V                                                |
| Power Consumption | 7W                                                       |
| Screen ratio      | 16:9                                                     |

|                                      |                                                      |
|--------------------------------------|------------------------------------------------------|
| Brightness                           | 1000cd/m2                                            |
| Operating Frequency                  | 2.4G Digital wireless signal frequency(2412-2484MHz) |
| OSD menu                             | Yes                                                  |
| Connector                            | Power lead and cigarette lighter                     |
| Operating Temperature                | -30℃～70℃, RH 95% MAX                                 |
| <b>Wireless Camera Specification</b> |                                                      |
| Image Sensor                         | 1/2.9" CMOS sensor                                   |
| Resolution                           | AHD 1080P                                            |
| Effective Pixels                     | 1920(H) x 1080(V)                                    |
| TV System                            | PAL/NTSC                                             |
| Viewing angle                        | 120 Degree                                           |
| Power supply                         | DC 12-32V                                            |
| Waterproof Level                     | IP69K                                                |
| IR lights                            | 18Pcs                                                |
| Transmission Distance                | 300M(Open area)                                      |
| Power Consumption                    | <3W                                                  |
| Maximum current                      | <250mA                                               |
| Minimum Illumination                 | 0.1 Lux (day), 0 Lux (with IR)                       |
| Video Output                         | 1.0 Vp-p/75 Ohm                                      |
| IR cut                               | Yes                                                  |
| Connector                            | Power lead                                           |
| Body Housing                         | Zinc alloy                                           |
| Operating Temperature                | -30℃～70℃, RH 95% MAX                                 |

Wire diagram

What's in the box

- 1 x 7" Wireless monitor
- 2 x AHD 1080P Wireless camera
- 2 x Power cables
- 3 x Antenna
- 1 x Car cigarette lighter
- 1 x Screw Kit for installation
- 1 x User manual
